## Our Topsy-Turvy World

By Teresa Hampton

Do you ever feel like the world is upside down? Things that were undeniably categorized as sin in the past, are now considered acceptable. In fact, they are seen as human rights and protected by law.

For instance, the homosexual agenda is likened to the movement in the 60's that sought civil rights for African Americans. However, the two are not to be equated. One is a matter of choice, the other not. Homosexual behavior is a choice, like adultery, polygamy, pedophilia, and other sexual sins. A person may desire to step outside the sacred bounds of God's sexual order, but he/she has a *choice*. On the other hand, one cannot *choose* to be Caucasian, African American, Hispanic, or Asian.

God views homosexuality as *vile, shameful, debased* (Romans 1:28-29). It is contrary to what is sacred, the union of man and woman established in the Garden of Eden (Gen. 2:20-25). Just because society puts its stamp of approval on this sin does not mean we must be compelled to do so.

During our lifetime we may desire to commit any number of sins, sexual or not, but as God fearing people we refuse to *act* on those desires. We buffet our minds and bodies so we can present ourselves living sacrifices to God (1 Corinthians 9:27, Romans 12:1-2).

Our world is topsy-turvy concerning sexual sin, and the only thing that can turn it right side up is truth. Will we be silent and politically correct, or will we speak and teach the truth in love?

**Today's Verse:** *Flee from sexual immorality. Every other sin a person commits is outside the body, but the sexually immoral person sins against his own body. Or do you not know that your body is a temple of the Holy Spirit within you, whom you have from God? You are not your own, for you were bought with a price. So glorify God in your body.* 1 Cor. 6:18-20

Exclusive: Scott Lively outlines pederastic roots of celebrated LGBT history (lesbian, gay, bisexual, and transgender)

In many elementary and secondary schools across America, October will be designated as LGBT History Month. It is certain to feature prominently in California where promotion of homosexuality to all school children is now mandated by law. And it is likely to be observed in all of the classrooms controlled by the nationwide Gay Lesbian Straight Teachers Network (GLSEN), whose founder, Kevin Jennings, was appointed “safe schools” czar by President Obama. This week WND linked to [a news story](#) about a Broward County, Fla., school that will teach “gay” history to kindergartners, but most GLSEN teachers will conduct these indoctrination sessions with no meaningful outside scrutiny.

LGBT History Month is not yet universally adopted by public schools. Nevertheless, throughout October tens, perhaps hundreds of thousands of innocent school children will be subjected to the most despicable brainwashing ever conducted in American classrooms. They will be taught, through carefully constructed lesson plans, to view homosexuals as a superior class of human beings whose influence on society has been wholly benign, but whose contributions to society have been limited due to irrational prejudice and bigotry. They will learn the importance of protecting homosexuals from societal “homophobia,” perhaps even emanating from their own parents, and that homosexuality is a perfectly normal and healthy (and unchangeable) form of sexual identity. In other words, they will be indoctrinated in provably false and thoroughly biased pro-”gay” propaganda.

In the interest of balance, I’d like to offer a few facts that are not likely to make it into the curriculum... To read more: <http://www.wnd.com/2012/09/kids-to-drink-gay-kool-aid/print/>
